

You should have:

Remote (+2 AA Batteries)

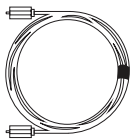

HDMI Cable

Power Cord

Coax Cable

Activation Card

**SECONDARY UNIT ONLY**

Keep in mind: to activate your new set-top box, you must have an existing XG1 or XG2 box up and running.

Keep for future reference, but if you decide to toss, please recycle.

Quick Start Guide v.1.0  
1698397C Printed in China

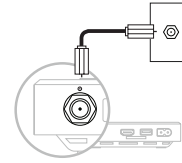

Start

## 2 Prepare

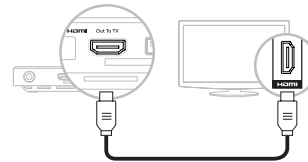

Before you begin, turn off your TV and pull the plastic tab from the back of the remote.

## 3 Connect

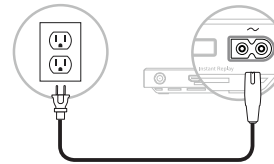

- A** Connect the cable wall outlet to the **Cable In** with a **coax cable**.

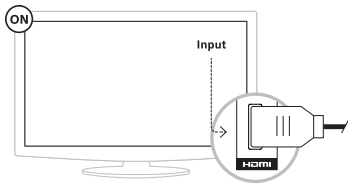

- B** Use the **HDMI cable** to connect to the **HDMI Out** connection.

Take note which HDMI port you're using, as you will reference it later.

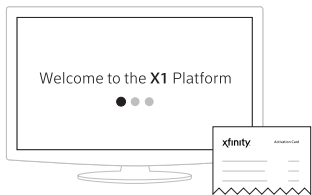

- C** Connect the **power cord** from your electrical outlet to the **Power In** port on the **set-top box**. You'll see the **Status LED** illuminate.

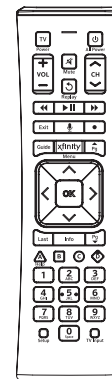

## 4 Activate

- A** Turn on your TV and select the HDMI port you used earlier.

- B** Your **set-top box** will begin powering up and, after a few minutes, you'll be taken through a brief setup. Keep your Activation Information Card on hand for reference.

- C** Remember to program your remote before watching. For help, go to [xfinity.com/remotes](http://xfinity.com/remotes).

**?** Seeing a blank screen? Make sure you've selected the proper input on your TV.
